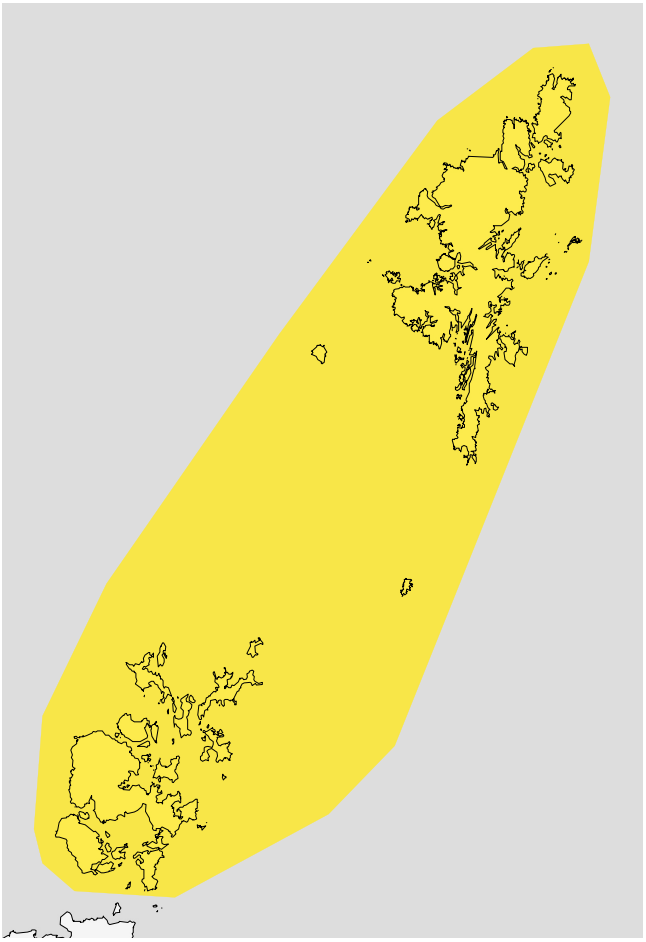
Yellow warning
Ice

Between
18:00 Mon 26 Dec 2022 and
11:00 Tue 27 Dec 2022



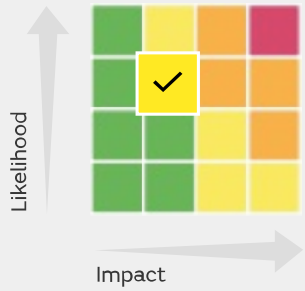
Wintry showers continuing overnight leading to an ice risk on untreated surfaces.

What to expect

- Probably some icy patches on some untreated roads, pavements and cycle paths, making accidents and injuries more likely
- Strong winds, sleet and snow this evening could make driving conditions difficult

Further details

Frequent wintry showers will continue through this evening, gradually easing through Tuesday morning. Whilst accumulations of snow look as if they will be fairly limited, ice is likely to develop on some untreated surfaces, or where treatment has been washed off. Strong winds, with gusts of 60-70 mph, across Shetland and north Orkney later today, will decrease through this evening.



Medium likelihood of low impacts

Issued at 09:36 Mon 26 Dec, 2022
